PUGLIA

THE LUXURY OF FEELING GOOD

*"Apulia, is a wonderful and evocative land in the heart of Europe, in Southern Italy, it is a symbol of timeless beauty ... the thousand-year-old cultural and artistic heritage, the rich and diversified food and wine-growing traditions typical of the Mediterranean diet, the unique and heartbreaking landscapes make Puglia a incomparable land that impresses itself in the eyes and hearts of those who have the chance to discover it. Uniqueness, quality, tailoring, style and well-being but also innovation, research, ethics and enhancement of the territory ... this how Puglia presents itself to the world, participating in the Vietnam International Fashion Week 2019"*

Puglia is a treasure chest of art, history and nature in southern Italy, strategically situated in the heart of the Mediterranean. Encompassed by both the Adriatic and Ionian Seas, Puglia is a diverse land which boasts a combination of varied shorelines and steep cliffs dropping into multicoloured seabeds, vast plains and gentle hills, where olive groves and vineyards alternate with lush woods and startling Mediterranean canyons, the Gravine. Puglia is a crossroads of people; many civilizations have come here, from the ancient Greeks to the Romans, the Byzantines, the Normans, the Swabians and the Angevins. Precious historical and cultural testimonials of different populations, its archaeological findings have an inestimable value and were brought to light in a number of archaeological excavations, together with its artistic and architectural treasures: menhirs, rocky churches, medieval castles, Baroque and Romanesque cathedrals, ancient stately palaces and historical buildings, enchanted villages and cities of art, charming farmhouses and cottages. Puglia is synonymous with wellbeing due to its beautiful places, good food and wine which are gaining more and more trust and attention worldwide.

Creativity, craftsmanship and quality are the characteristics of Puglia's Made in Italy, which represents a new concept of luxury and a product made with experience and quality.

The pugliese fashion stands out through its strong cultural values, providing its Made in Italy worldwide and celebrating talent through its textile and tailoring tradition, while guaranteeing tradition and craftsmanship. Likewise, Puglia's outstanding local produce, a symbol of "Mediterranean diet", Unesco's intangible cultural heritage of humanity, an expression of thousands of years old traditions high in healthiness, quality and traceability of ingredients, has been handed on from generation to generation from "farm to table".
